The steer care in contact with a man in the employ of J. C. Pietoe, jamming him up against a freight car, and in that situation, shoving him the entire length of the car. The man was badly bruised, a portion of one nostril was torn off. and he was gored in the side, the animal's horn penetrating to the rib. It was at first thought that the wound was fetal; but the man was cared for, and his wounds dressed, after which be revived somewist. His injuries are very serious, but may not prove fatal.

Sraing TRADE -Now that Spring trade is opening up, and this country has the advantage of several channels of transportation, a wide range is offered our merchants from which to select their supplies. They have river and railroad connection with the markets, from St. Joseph to St. Louis. In the grocery line, we would recommend Cochran, Bittmann & Tay lor, of Leavenworth. They are among the heaviest houses above St. Louis, and as they are just now making an effort to extend their trade, we doubt not that unusually liberal in ducements will be held out. Give them s trial, at all events.

The Tribune has been, is, and must be, and must be, and must be the state of the st realous advocate of Protection to Home Indus-try. Regarding habitual idleness as the great-est foe to human progress, the bane of human happiness, we seek to win our countrymen in masses from the ensuaring lures of Speculation of Traffic, and of always overcrowded Profes sions, to the tranquil paths of Productive In dustry. We would gladly depicte our over-crowded cities, where thousands vainly jostle WANTED—AGENTS, (\$20 per day, to sell the HOME SHUTTLE SEW, to sell the Home Shuttle, Manufactures, and constantly projecting into the blank, void vilderness the homes and the works of civilized Man. Holding the Protect on the section and so to the intraction of lower people in all the gainful arts of Peace, we urge our countrymen to adhere to and up-hid that policy, in unclambring faith the true interest, not of a class or a section, but of each section and borrowing its own tens, hundreds, etc., without the least thought on the part of the operation. bounded faith in the liberality and discernment of the reading public, will enable us to make a gournal which has no superior in the accuracy, variety, and freshness of its contents, The Tribune shall be such a journal.

To Agiculture and the subservient arts, we have devoted, and shall persistently devote, more means and space than any of our rivals. We aim to make The Weekly Tribune such a paper as no farmer can afford to do without, however widely his politics may differ from ours. Our reports of the Cattle, Horse, Produce, and General Markets, are so full and accurate, our essays in elucidation of the farmer's calling, and our regular reports of the Farmers' Glub and kindred gatherings, are so interesting, that the poorest farmer will find therein a mine of suggestion and counsel, of which he cannot remain ignorant without positive and serious loss. We sell The Weekly to Clubs for less than its value in dwellings for waste paper; and, though its subscription is GREAT SAVING TO CONSUMERS form will accompany it, containing full direc-tions—making a large saving to consumers, and remunerative to club organizers.
